K.A.A.N.

Ayy, yah, ayy, and turn my, yah, and turn my shit up, yah, uh h
uh, yah, and turn my

I'm nonchalant with my shit man I move with a hush
These niggas singin' like Gallant tryna blow in the rush
Erratic temperaments your Backwood filled with that dust
I call your bluff quick, prehistoric flow what you spit is like
a musket

Trust this, redefine [?] is oppressed
Niggas operating off of sheer hubris
It's humorous that shit is about as useful as a tumor is
My shit hotter than turmeric or Cayenne
Look my plan, is more seductive in it's nature
Need that Rick Flair paper, for plains trains and automobiles
This shit is rocket science bitch I'm reinventing the wheel
Not that 40 acres and a mule regular spiel
Yah this that Mansa Musa maneuver that make me a fortune
The largest portion I'm gon' need it either that or I leave you
bleedin'

Salutations I'm gon' send it in this grievance while you grievi
n'

Questionin' your character like what do you believe in
If you based it in them fairy tales stories you off
I need that hardcore raw truth with no other on
That unfiltered unadulterated
Nothin' watered down exaggerated
Beatin' around the bush it gets me aggravated
Shock value of the false is fuckin' captivating
But it ain't real, it's just a fugazy
These niggas is crazy they rather have their dope diluted
Don't know the source they got it from but shit they still gon'
use it

Go on, heat it up heat it up grab the needle
Put it in your vein let it go to your brain
Dang music and Methadone's one in the same
It's been this way since the beginning ain't a damn thing chang
ed, at all

It's pretty entertaining though
They give you all the tools for self-
destruction inside of the videos
A manuscript made from procrastination
A fabricated image based off of exaggeration
That's like God and the Devil collaborating
Oxymoron's perpetuated for homes and car payments
It doesn't make much sense, but fuck it
Long as the kids are still willing to spend and listen in inten
sively
And live vicariously through subconscious imagery well then the

mission's complete
