

Take Me Back

K.A.A.N.

Running like Bo Jackson, looking for routes, I seem to pass 'em
[?] the flow 'cause this style is a classic
I revised it for the bastards
I am a master, still connected with my passion
Longevity, I'm outlasting
You could imagine, quantifying all the rations
I don't think that you could fathom
Feeling rejuvenated, I breathe life, insight
Tell 'em my story, it gotta sound right
Shit that I'm giving [?] soundbites
Swimming inside of the water with sharks, I'm hitting my mark
These motherfuckers are all bark with no bite, all hype
Coupla [?], gotta rewrite
Stoking the flame to get the heat high
Holding your breath until you deep dive
Spitting the real to make 'em revise
Let them realize, my potential never had no limits
Tell 'em I will stay in the race until it's finished
All the bullshit a nigga gotta diminish, replenish
These rhymes never had a disclaimer
I'm a lion tamer, living in the jungle
You're an entertainer, you don't wanna rumble
Battle with these skills and you might get humbled
Your plans all crumble, your foundation is gonna tumble
Rise from the rubble like a phoenix
I could set the scene, obscene, I seen it
In a different league, nah nigga we ain't teammates
I wanna make a play but they're waiting on the replay, debate
I don't feel shit, I am numb to the core
Dedicated, I am staying the course
Motivated by the singular source
And I'm back in the gym with the pen like a sport

Pray I'm forgiven for all of my sins
Did what I had to do to get a Benz
I don't believe in the concept of friends
Niggas'll fold and leave in the end
I never break, I'm refusing to bend
Tell 'em I'm working from ten to ten
Did it before and I'll do it again
Who do I trust, just me
Pray I'm forgiven for all of my sins
Did what I had to do to get a Benz
I don't believe in the concept of friends
Niggas'll fold and leave in the end
I never break, I'm refusing to bend
Tell 'em I'm working from ten to ten
Did it before and I'll do it again
Who do I trust, just me

It really ain't complicated
The way that I adjust to the situation
I was tryna live it up, high as a spaceship
My mind evasive, my time I refuse to waste it
My hotline jammed from the songs I'm making
Real deal, you a fraud, I can tell you faking

I'm a renaissance man running outta patience
I was last but I kept with the pace, I'm up now
[?] with past, tryna score the touchdown
They really want test my condition
And I'm running circles round niggas with the gift again
I got top ten drive, my speed, my vibe
Don't believe your ears, don't believe your eyes
Giving into your fears, what a nice surprise
I cannot see the red like a fucking sunrise
Niggas move backwards, going counter clockwise
Go against the tide and go against the grain
No we are not the same, I ain't familiar with' ya
These broad strokes'll paint a bigger picture
Go deep like a motherfucking ditch digger
My reach, my speech, these words I teach
They fiend, they leach, they feed, they feast
They suck you dry then let you leak
That's human nature in it's purest form
Internal battles, I'm forever torn
Baptized, I am now reborn
You a carbon copy, you another spawn
I'm tryna right my wrongs to correct my karma
Still half and half like an Arnold Palmer
One side is live and one side is calmer
Murder this shit, nigga what's the problem?

Pray I'm forgiven for all of my sins
Did what I had to do to get a Benz
I don't believe in the concept of friends
Niggas'll fold and leave in the end
I never break, I'm refusing to bend
Tell 'em I'm working from ten to ten
Did it before and I'll do it again
Who do I trust, just me
Pray I'm forgiven for all of my sins
Did what I had to do to get a Benz
I don't believe in the concept of friends
Niggas'll fold and leave in the end
I never break, I'm refusing to bend
Tell 'em I'm working from ten to ten
Did it before and I'll do it again
Who do I trust, just me
