

# Thankful

K.A.A.N.

Tell me what you know  
Tell me what you go through  
Tell me when you go  
I feel like a notebook  
I don't want it if it's really that complicated  
I can't feel no good vibrations  
I don't want it if it's really that complicated  
I can't feel no good vibrations

I had to run all my life, looking for light, move in the dead of the night  
I was just rolling the dice, payin' the price, make sure the numbers are right  
I had to fight with the demons, dealing with all of my problems  
So that I could rise from the ash like a phoenix  
I'm fighting inside the arena  
My intuition intervened and that is the reason I'm breathing  
Landfill full of dreams, there isn't no one to seize 'em  
Strange fruit in the tree, harvest the horrible season  
You seen the blood on the leaves, just like a fucking disease  
If anybody yeah that really feel me hope you hear me loud and clear  
Bitch I'm outta here, run into the field  
Still on my trip, I commandeer  
I done withstood the pain, got through the stress  
Maintaining through every step  
Can't quit, still persistent nigga I know

Tell me what you know  
Tell me what you go through  
Tell me when you go  
I feel like a notebook  
I don't want it if it's really that complicated  
I can't feel no good vibrations  
I don't want it if it's really that complicated  
I can't feel no good vibrations
