Sweet (sweet)  
A spoonful of sugar  
Sweet (sweet)  
A spoonful of sugar  
Sweet (sweet)

If you wake up and check what's going on in your phone before you check what's going on outside  
That's a cavity  
If you like to gossip and talk shit about him, her, and them more than you talk to God  
That's a cavity  
If you're more up to date on the latest internet trends than you are with the current state of the nation - the modern day slavery of mass incarceration; the false flagging operation of the emancipation proclamation  
That's a cavity  
If you smoke five blunts a day with no health insurance and go to the dispensary more than the doctor  
That's a cavity  
If you can't save money to save your life 'cause you spent it on a vice to feel nice  
That's a cavity  
If you out here telling people your profession is an influencer for Instagram or Tik Tok  
That's a cavity  
A mouth full of cavities and for that sweet tooth all you need is  
A spoonful of sugar
