

The Shit

K.A.A.N.

Yea, uh huh, lawd, knowledge, nigga, yea, look

And you can find me in a space where happiness is now a rarity
I pump Gorilla Zoe and force my foes to feel the energy
I'm rollin' rollin' rollin' we ain't slept in 'bout a couple weeks

I wonder where the hours go they dissipate I'm all alone

Fuck it I'ma get you a ridiculous passion
Let it trickle to the tenants intended to take time
My mind is amazin' I'm makin' it do tricks
True shit loose lips sink ships

I know it look

Homie I am dope and we just found a way to show it
Lookin' at the way that I'm workin' I've been devoted
Focused on the dream nothin' ever comin' between
Nigga everything is dope like a key from Medellín
And you could hop up on the train and take a ride
You ain't gotta tell me this is everything allied
If you listen close I bet I bring you back alive
Wonder what the facts are I tell the truth I never lie
If you feel the rhythm I'm done forcin' you to side
Who the fuck am I to disagree I said I never do
I'm constantly damaging competition from moments of repetition
It's like you niggas don't get it it's simple this isn't physi-
s

And I've been chillin' by myself and writin' rhymes for 9 days
I have lost track of the time and I ain't slept since Friday
I'm damn near too obsessive trying to do this my way
I been more focused than ever I'm just praying that it pays

Nigga we know we the shit
You ain't gotta tell us we the shit
We know we the shit and that's the truth
Nigga we know we the shit
You ain't gotta tell us we the shit
We know we the shit and that's the truth
Nigga we know we the shit
You ain't gotta tell us we the shit
We know we the shit and that's the truth
Nigga we know we the shit
You ain't gotta tell us we the shit
We know we the shit and that's the truth
