

# Tick Tick Tick

K.A.A.N.

I recall way, way, way back when  
In a war, it was me against them  
Didn't have no choice, didn't have no chance, all I had was a pad and a pen  
I recall when I took that risk  
Ain't none nigga do it like this  
When you get that shot, you better shoot that shit little nigga and you better not miss  
You don't wanna have to live with the regrets  
Said you gotta push forward don't regress  
That clock go tick, tick, tick, tick, tick, tick til it ain't no time left  
You don't wanna have to live with the regrets  
Said you gotta push forward don't regress  
That clock go tick, tick, tick, tick, tick, tick til it ain't no time left

Hope you niggas find your passion quickly  
I'ma be the one to set the date they kill me  
Took a little time but they finally feel me  
Tapping into the craft, the rhymes got filthy  
I have been motivated by more progression  
They said I'm addicted, I feel the obsession  
The best of the best when it comes to the ones that [?] they observing the lesson  
The fuck is this  
I will never fall off, I am in a whole 'nother league  
What the fuck I miss  
I am not amused by the games they play  
These niggas on some other shit  
I'ma just plot til the clock stops ticking  
I'ma watch 'cause I know the plot thickens  
If you just paid attention, you could see it nigga

I recall way, way, way back when  
In a war, it was me against them  
Didn't have no choice, didn't have no chance, all I had was a pad and a pen  
I recall when I took that risk

That clock go tick, tick, tick, tick, tick, tick til it ain't no time left  
You don't wanna have to live with the regrets  
Said you gotta push forward don't regress  
That clock go tick, tick, tick, tick, tick, tick til it ain't no time left

Can't call no time out  
Working with the opposition, let me find out  
I'm aware it's a race for the top  
If you're running for your spot then you can't get boxed out  
I will not clock out, not today  
I will go find my way

It really ain't much to say  
I know it's all about your vision, the way that you operate to more than exist  
I can insist, that you keep taking that risk  
Small pond with the big fish  
Anything better than being 12 feet in the earth, not dead in a ditch  
It's safe to say this shit is what you make it  
You could be fooled and you could be vacant  
You only gonna get round go round in this life  
Ain't no replacing

I recall way, way, way back when  
In a war, it was me against them  
Didn't have no choice, didn't have no chance, all I had was a pad and a pen  
I recall when I took that risk

You don't wanna have to live with the regrets  
Said you gotta push forward don't regress  
That clock go tick, tick, tick, tick, tick, tick, tick til it ain't no time left
