

Time Out

K.A.A.N.

Yeah, Lawd
Yeah, Uhu Yeah
Look, Look
I gotta go and get it
No I never take no time out
Now cause time ain't on my side
Will I survive we finna find out
Taking care of mines
I'm trying to keep it copacetic
I just want to make it
I don't think they understand it nigga
You gone do what you do
You don't do what you say you do
No, I don't know what to say to you
Don't know what to say to you, say to you

Tell me what the fuck a niggas asking for
And when I get up on the beat I'm going back and forth
Gotta attract the flow
I'm like a matador
Never surpass the bull
I'm nothing more than equal
I stay broke with my bills due and
My time spent in this day job
With this nine to five
No I can not survive, it's like I'm barely alive
And every time I try
I just fall flat from a set back
What they call that
Woke up in the motherfucker like I need all that
Hold up, decline
Bitch better run that again
I ain't even got no motherfucking ends
With no money I can spend
With the time that it takes to get dividends
Dippin' in and out of my savings
Until it gets down to the last few cents
Don't make no sense
I can never seem to pay my rent
God damn it but I'm back up on it
Like a phone fiend murder any fucking opponent
And sever a puzzle know what a nigga pick appalls
Divulging but I'mma never be the one to give away the secret
I keep it for the people that would need it
But not for the ones retreated
And traitor is leavin'
I've never been up appalled by the treason
The only other side of jealousy is the reason

I gotta go and get it
No I never take no time out
Cause time ain't on my side
Will I survive we finna find out
Taking care mines
I'm trying to keep it copacetic
I just want to make it
I don't think they understand it nigga

You go do what you do
You don't do what you say you do
No, I don't know what to say to you
Don't know what to say to you, say to you

You can never really understand me though
I spit it quick to try to give a nigga antidotes
Another question I ain't even gotta answer for
Defending the purpose to find out what the fuck I need
To progress, impress as I proceed
To be the illest motherfucker that your eyes ain't seen
My nigga I'm obscene so what the fuck you mean
Your negative energy giving people you can believe
I wanna get it like nobody ever got it
I wanna strike it while the irons still hot
You envious of the plot
And you hoping a young nigga would stop
Praying for my down fall that wasn't really a shock
I'm the dopest motherfucker that's alive
Makaveli in the flesh
That'll let you get revived, I despise
The fact that my generation was deprived
From a different vision I'm officially comprised
You will not see my demise
But the times we living we don't really for forgiveness
I'm working with the tools that I got
Trying to manifest a dream
Everything ain't what it seems
I want a beautiful scene
But the situation I'm currently ain't serene
What the fuck I gotta do do make sure I'm really supreme
Dedicated to the craft
You understand what I mean
It's the passion and pain of the love of it all
With the focus I have I'm praying it never dissolves

I gotta go and get it
No I never take no time out
Cause time ain't on my side
Will I survive we finna find out
Taking care mines
I'm trying to keep it copacetic
I just want to make it
I don't think they understand it nigga
You go do what you do
You do, you do, you do, you do, you do
You don't do what you say you do
Don't do what you say you do
I don't know what to say to you
Don't know what to say to you, say to you
