(Oh) don't try to duplicate, I cannot be replaced, my shit is raw and it's uncut  
Don't make the news today, playing them fucking games, thinking that you can not be touched  
I have been chosen, I'm the one  
Top of the top, I don't see none  
They tried to replicate but couldn't do it right  
I got the skill that is unfuckwithable, withable, withable, withable, withable, withable  
Unfuckwithable, withable, withable, withable, withable, withable  
Unfuck-

Levels on levels, I elevate for the medal  
I pedal while pushing the product to the pinnacle  
Sentence is like a fucking vendetta, I gotta show 'em the effort  
The way I've developed and managed to manifest through the madness  
I wanna get better, in a whole 'nother universe like the Meta  
Open your eyes nigga, you could see the setup, I will never let up, if I fall I get up  
Time is of the essence, go and get your cheddar, your mozzarella and bread quickly  
Niggas are brittle, they break and crumble like bread sticks and I devour  
The pack and I'm pushing it and my fragile is porcelain, it's a shame  
Know there's levels to it so I don't have to do it again

(Oh) don't try to duplicate, I cannot be replaced, my shit is raw and it's uncut  
Don't make the news today, playing them fucking games, thinking that you can not be touched  
I have been chosen, I'm the one

Unfuckwithable, withable, withable, withable, withable, withable

I gotta make it obvious, they don't see the devotion  
The way I'm composing technical aspects with the motion (yeah)  
Open the book and close it, this shit is sick if I wrote it  
The polls and opinions never existed within the notion  
It's harder to fight this feeling when you feeling this intense  
All of your shit is living on the surface like Blistex  
When it's lacking the content it's easy to dismiss  
I been back, swing and I fucking miss, you can't hit this  
How in the fuck you make it out when you ain't take a risk?  
Opportunities you could miss 'em, ain't that a bitch?  
Wasn't exactly what you thought it was in the end  
I guess it's really all about your drive

(Oh) don't try to duplicate, I cannot be replaced, my shit is raw and it's uncut  
Don't make the news today, playing them fucking games, thinking that you can not be touched
