Yeah  
Ah huh  
Lord, knowledge, yeah  
I said who's that now  
I feel alone, I let my mind, my mind, my mind, my mind

I ain't even got no options I just hold it down  
It's been a minute since I felt the way I do now  
I can feel the groove now  
Right back in the pockets of these records like I used to be  
The restless nights, I stayed up  
Wondering would this pay off  
Second guessing my first thought  
We all gotta learn  
But in return, I received a valuable lesson indeed  
Patience is something that you need within this journey of life  
Don't get it twisted at all, I drain y'all's negativity  
My tendencies are A-1, undeniable garçon  
Unequivocal champion, channeling positivity  
Undisputable view of perfection through my soliloquies  
I wish that you could see the shit like  
I  
See I set my sights on something great I let my mind achieve it  
All the time that I've invested feeling lost  
Believe me  
Oh lord, don't leave me  
Oh lord, don't leave me  
Oh lord, don't leave me  
All y'all retreating, this worlds deceiving I can't believe it  
The devil is alive and well he lives inside of some of them  
I somersault the serendipity to find my happy place  
My habitat's of isolation might cause my unhappiness  
I hope and pray the holy hands that help me never go away  
Won't you stay with me, won't you stay with me  
(Don't you ever leave me, lost the feeling I need more of)  
Won't you stay with me, won't you stay with me  
(Don't you ever leave me, lost the feeling I need more of)

I said who's that now  
I feel alone, I let my mind move on  
Nowhere to go and  
I said who's that now  
I feel alone, I let my mind move on  
Nowhere to go and we say, hold nigga, never stop

I can't root for disaster, I wanna [?]  
On basses to bask in the back of a [?]  
What a beautiful view, father forgive me for sins  
I complicity know what I do, now I must tell the truth  
I said I must tell the truth  
Nothing in this life is free, what the fuck do you mean  
I got no damn expectations, my heart I wear that on my sleeve  
Now it's torn and it's tattered, my blood turned anemic  
I've just turned the corner, forgot all my demons  
Can't hold no grudges, I just hold the tempo  
I can't make'em wait please don't leave un momento  
Like wrap this shit up, we'll never make it for sure

We've brought it back I'm the one like the prodigal son  
We was in the back in the cut, nigga we was never acting for them, but ya'll  
was acting for them  
Them niggas acting like they had it for real  
Them niggas acting like they had them a deal  
Them nigga's acting like they off of a pier  
I guess they added up and had it for real  
See I was focused on the signature feel  
I've been mobbing on the move I be, I ain't worried about a thing, not a neg  
ative thought  
I'm trying to keep it all together, show the world what I want  
I got a list of things to do, but I don't know where to start  
Yes lawd
