

# Where You Been

K.A.A.N.

I'm aristocratic, legendary status  
Ten blunts to the face, I'ma let 'em have it  
They knocking on my door, peeking through the window  
Niggas telling police, Carl Winslow  
Where you been?  
I been posted in the background  
Nigga where you been?  
With my niggas in the dog pound  
Nigga where you been?  
Getting high, feeling profound  
Nigga where you been?  
Topped off in a compound  
Nigga where you been?

Pick the effort up and maximize it til the day a nigga is deceased  
I been running in this marathon, it gets repetitive definitely  
Start the engine up and rev that motherfucker, get it going expeditiously  
I gotta ride past all my enemies  
I want the high life, the amenities  
I wanna move down from the nosebleeds to the floor seats, the vicinity  
I gotta elevate, let that shit resonate  
I'm in a better place, you niggas hesitate  
Tell 'em I demonstrate, nigga I regulate  
It's a different feeling when the vision painted  
I been too efficient with decisions lately  
I've been in the zone, it's like I can't escape it ah  
Thinking I'm the one, ah  
From the time that I'm up 'til the sundown  
Going round for round and pound for pound and blow for blow  
I'm face to face with every foe  
The overlord, the overseer, you're overreaching  
Nowadays niggas so facetious, can't believe 'em  
Paid the meter, find a reason, feeling like it's my season

I'm aristocratic, legendary status  
Ten blunts to the face, I'ma let 'em have it

Where you been at?  
Minding my business  
Feel like Popeye ooh, flex when I get the spinach  
Where you been at?  
Feeling like I'm a big cat  
I'm the king of the relapse  
Too fast with the speed pass  
I'm [?] with the keys to the rover  
I'm beast, I'm an ogre

I'ma fight [?]  
I been in the kitchen ooh  
Whipping up something ignorant ooh  
All my dogs are vicious ooh  
Ooh, they from the interlude  
Tell me what you finna do  
Not afraid of lose  
I done paid a couple hunnid dues  
Who the fuck is you?  
Talking game, we got it sewed up  
Make you fold up  
Out your lane, you think you're so tough  
I don't know bruh  
Get it boys, it's been a minute now  
You wanna beef then go to In-N-Out  
Better, my moves are like Brady  
I'm doing laps going 80  
[?] with who pays me  
Never had time to be lazy  
Where you been at?  
In the back going crazy
