

Getting high 'til I come down
We was fighting 'til the last round
Won't you tell me where you go now
I need a place to lay my head down
Are you still around, ah
Looking high and low still can't find you baby, ah, ah
Looking high and low still can't find you darling, ah, ah

Might drown in your river
Backstroke 'til you feel it
Upstream with the fishes
You know I can see it clearly
Getting ready 'cause I'm on again
Move it closer while the world is spinnin'
This forever no it never ends
We gonna do it all again

Getting high 'til I come down
We was fighting 'til the last round
Won't you tell me where you go now
I need a place to lay my head down
Are you still around, ah
Looking high and low still can't find you baby, ah, ah
Looking high and low still can't find you darling, ah, ah

Ima need a chance

Hooked on your love, baby can't you tell? Eh
I can feel it in the air
I'm addicted and nothing compares, eh
Tryna build like the pyramids
Sky high where my head has been
Up with the elements
No need for embellishments
I got keys to the door, baby let me in
I could swim in the deep with the best of them
My shit raw, make 'em tap like wrestling
[?] see my name again
The main event
It's hot baby where we went
Heatin' up that's evident
I want the distance, the measurement
Flawless like a perfect 10
The one that won but yet again

Getting high 'til I come down
We was fighting 'til the last round
Won't you tell me where you go now
I need a place to lay my head down
Are you still around, ah
Looking high and low still can't find you baby, ah, ah
Looking high and low still can't find you darling, ah, ah
