

Temptations

Kaash Paige

It's hard to be with somebody
When you never really had nobody
Cash my checks, life of the party
Things haven't changed, same old story

Damn, there she goes dancing on her friends
Damn, there she goes dancing on her friends
Da-damn, there she goes dancing on her friends

There she goes dancing on her friends
There she goes dancing on her friends
There she goes dancing on her friends
There she goes dancing on her friends

Wave, I'm on a ride
What a time to feel alive
I'm on a wave, I'm on a ride
What a time to

It's never worth
Temptations and flirts
Red lipstick on my cheeks
Short mini skirts

Break my heart, build me up, hit where it hurts
If I get caught, it won't be smart, end up in dirt

But I can't help it when I'm in my zone
5 AM. Am I still going home?

There she goes dancing on her friends
There she goes dancing on her friends
There she goes dancing on her friends
There she goes dancing on her friends

Wave, I'm on a ride
What a time to feel alive
I'm on a wave, I'm on a ride
What a time to
