

Heart of the Woods

Kacey Musgraves

Under the ground
There's a neighborhood that can't be seen
And up in the trees, there are voices that are echoing
And up in the trees, there are voices that are echoing
A million different languages
Songs we sing

It's in our nature
To look out for each other
In the heart of the woods
When there is danger
We'll take care of each other
In the heart of the woods

It's in our nature
To look out for each other
In the heart of the woods
When there is danger
We'll take care of each other
In the heart of the woods

Heart of the woods
