

# Bring It On

Kaci

Heart beat pounding like a freight train coming like a hurricane  
There's nowhere to hide  
In the red meat hunker of the concrete jungle this is not a game  
They will eat you alive

You got one shot to make it though the night  
So you better man up when there's fight or flight

Bring it on  
Bring it on  
Bring it on  
Bring it on  
Got to bring it on  
Got to rob the fight  
I will stand alone  
After tonight

Bring it on

Line up staring to the dark night looking for the first sign  
No time to lose  
All thoughts creeping like a sexed up kitten sneaking up behind  
Its not up to me or you

You got one shot to make it though the night  
So you better man up when there's fight or flight

Bring it on  
Bring it on  
Bring it on  
Bring it on  
Got to bring it on  
Got to rob the fight  
I will stand alone  
After

I caught a glimpse of my reflection now I'm starting to see  
Why everybody in the world keeps looking at me  
Ive got a sick model body I'm a new kinda breed  
And if you think that you can take it go ahead try me

My eyes on fire they're looking at you  
You think you got it figured out but you don't have a clue  
So keep looking at my ass watch it leave you behind  
You think if I was any diff.. it's all in your mind

Bring it on  
Bring it on  
Bring it on  
Bring it on  
Got to bring it on  
Got to rob the fight  
I will stand alone  
After I bring it on

Bring it on  
Bring it on

Bring it on  
Bring it on  
Got to bring it on  
Got to rob the fight  
I will stand alone  
After I bring it on
