

Another You

Kacy Hill

I worry I'll never get there
That place where I feel like I'm somewhere
(Ooh, what's been on your mind? I feel it all)
I just want you to hold me
(Ooh, what's been on your mind?)
But somehow not too closely

Cause I can make it real
Anything that I like
Imagine how it feels
Driving without the lights
Cause I can make it real
Anything that I like
Imagine how it feels
Driving without the lights

But oh, my darling
You just need another point of view
Point of view
One day you'll look back
And you'll barely recognize that you
You've been talking to

I call my dad when I fall back
But he's got enough on his own, I don't say that
(Ooh, what's been on your mind? I feel it all)
But if I'm being honest
(Ooh, what's been on your mind?)
You know that I've been upset

Cause I can make it real
Anything that I like
Imagine how it feels
Driving without the lights
Cause I can make it real
Anything that I like
Imagine how it feels
Driving without the lights

But oh, my darling
You just need another point of view
Point of view
One day you'll look back
And you'll barely recognize that you
You've been talking to

I'll see you tomorrow
Fresh in the morning
Know it'll be better
'Bout time that I felt it
I know it sounds like
Such a lie
Believe me this time
