

# Dinner

Kacy Hill

Had this dream where  
A girl kissed your mouth  
She had blue lips  
And I watched how you felt  
Still, I could only love you

Remember that night  
We were too stoned to drive  
I panicked  
In the passenger side  
The world felt like it slowed down

But I'd like it, if it slowed down with you, my love

Would come through  
And fall asleep with you  
And you could love me the same, ooh  
You could love me the same, ooh  
You could love me the same

California  
Doesn't smell like home  
Like Arizona  
After warm thunderstorms  
And I wish that I were there with you

Sometimes I picture  
My home against yours  
'Til they meet up  
And my home becomes yours  
'Cause I'd like to always be with you

And I'd like it  
If you were there with me too, my love

I'd be there  
To fall asleep with you  
And you could love me the same, ooh  
You could love me the same, ooh  
You could love me the same

You could love me the same  
You could love me the same
