

# Foreign Fields

Kacy Hill

When will we fall?  
Silence over us all  
Seek peace in chains  
Rapt in exchange  
Somewhere farther we both know  
Take me higher than you'll go  
Stuck in feeling something real  
Skeptic to a new ideal

Motion to foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Foreign fields

Lost in our mood  
Afraid to feel truth  
Succumb to your youth  
Melt into seclude  
Velvet touch to swollen brace  
Languorous movements we both make  
Lithe perception, who's to blame?  
Osculate until we break

Motion to foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Foreign fields

How did we get  
How did we get here?  
How did we get  
How did we get here?  
How did we get  
How did we get here?  
How did we get  
How did we get here?

Motion to foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Motion to foreign fields  
Foreign fields

Motion to foreign fields (I know we can)
