

# Keep Me Sane

Kacy Hill

When we feel safe  
The rain escapes  
Waiting in vain  
As water climbs our frame  
Drown in this state  
Please pull me away  
I've known dread to this day  
Teach me to swim

Hold my breath to the last drop  
I'll breathe with you 'til we stop  
Will your silence distract me  
From overreacting?

Ooh, there's so much to say  
When time is our enemy  
Ooh we embrace pains

Will you keep me?  
Will you keep me sane?  
Will you keep me sane?  
Will you keep me sane?  
Will you keep me?  
Will you keep me sane?

In state of grace  
Desire hangs  
Spellbound in space  
We absolve our pain  
I've lived in shade  
Afraid of change  
'Til I let your tide overtake  
And pour me into the break

Hold my breath to the last drop  
Will your silence distract me?

Ooh, there's so much to say  
When time is our enemy  
Ooh we embrace pains

Will you keep me?  
Will you keep me sane?  
Will you keep me sane?  
Will you keep me sane?  
Will you keep me?  
Will you keep me sane?

Ooh, I have so much to say  
When time is our enemy  
Will you keep me sane?

Will you keep me?  
Will you keep me sane?  
Will you keep me sane?  
Will you keep me sane?  
Will you keep me?

Will you keep me sane?

Will you keep me?

Will you keep me?

Will you keep me?
