

We can do anything together
The long long days got me sick and tied up
Didn't your friends warn you about us?
I love it when I see them psyched
We can do anything, they'd never
Get on a way like that, tryna tear us apart
Go where friends told you not to run
I will be there with you tonight

And I go easy easy easy easy easy easy on me
I said I take it easy easy easy easy easy easy easy
I take it easy easy easy easy easy easy on me
I said I take it easy easy easy easy easy easy easy
I take it

We can leave as it is forever
There's no one in the game who could tell otherwise
Them regrets are always made up
By people who live in the past
We'll go through anything whatever
We make it through the week, then we make it on top
Makes no sense to talk about that
But better you don't cut me off

And I go easy easy easy easy easy easy on me
I said I take it easy easy easy easy easy easy easy
I take it easy easy easy easy easy easy on me
I said I take it easy easy easy easy easy easy easy
I take it

We can do anything together
The long long days got me sick and tied up
Didn't your friends warn you about us?
I love it when I see them psyched
We can do anything, they'd never
Get on a way like that, tryna tear us apart
Go where friends told you not to run
I will be there with you tonight

And I go easy easy easy easy easy easy on me
I said I take it easy easy easy easy easy easy easy
I take it easy easy easy easy easy easy on me
I said I take it easy easy easy easy easy easy easy
I take it
