

## Eulogy

Kadebostany

You'd be laughing hard right now  
It's a shame that you're not here  
I'll grieve under the light of the sun where you're shining  
So you won't see me cry

You'd be dancing in Prague now  
It's a shame that you're lying here  
I'll heal under the light of the sun where you're shining  
So you won't see me cry

Cause I was in love with you sometimes  
If you were June, I guess it's Christmas time

You told me nothing lasts  
But I thought you would  
Things are often bad  
You were often good  
It's been hard

You'll be studied by historians  
You used to heal your deep scars singing on an 8 bars in New Orleans  
You'll be studied by historians  
Healing up your deep scars singing in an old bar of New Orleans

You told me nothing lasts  
But I thought you would  
Things are often bad  
You were often good  
It's been hard

You told me nothing lasts  
But I thought you would  
Told me nothing lasts  
But I thought you would  
I thought you would  
It's been hard
