

# Jolan

Kadebostany

What can I do  
To make stay my love  
You fit me like a glove  
I love when you are by my side  
My love is like an endless slide  
I feel like the whole world  
Is flying in my heart  
In my heart, in my heart, in my heart  
I feel like  
We could almost be a work of art  
Work of art, work of art

J-O-L-A-N  
Five letters  
I love each of them  
J-O-L-A-N  
Five letters  
I love each of them  
And I love everything about you  
From you to your soul  
I can take it all  
I can take it all  
I can take it all  
Take it all

Where are you  
My guru  
I'm tired of calling you  
I wish I could be more than a friend  
I wish I could be close to you until the end  
Oh please, don't tell me, don't tell me you'll regret, you'll regret, you'll  
regret, you'll regret  
Sometimes you hear that some people love each other but you've never met

J-O-L-A-N  
Five letters  
I love each of them  
J-O-L-A-N  
Five letters  
I love each of them  
And I love everything about you  
From you to your soul  
I can take it all  
I can take it all  
I can take it all  
Take it all

Oh, I feel so high  
When you're next to me my heart is flying in the sky  
Oh, don't send me a curse  
And I'm sure we can cross the universe  
I know, maybe there's a sea between us  
But it's not the time to make a fuss  
Oh J-O-L-A-N take your time to understand

J-O-L-A-N  
Five letters

I love each of them  
J-O-L-A-N  
Five letters  
I love each of them  
And I love everything about you  
From your tears on  
I can take it all  
I can take it all  
I can take it all  
Take it all
