

Kill the Noise

Kadebostany

All this time
Can't set me free from drama
I'll remain
In silent mode
Until I can kill the noise
Kill the sound
Kill the noise
Cause there's no more words when you're around
I better kill the noise
Kill the sound

Oh how you kill me with
Your avalanche
You freeze my heart
Until I cannot
Move to pull
Out the dart

After time
It's never easy
To remain aligned
You said you wanna
Kill the noise
Kill the sound
You wanna kill the noise
There's no more love to keep us bound
You wanna kill the noise
Kill the sound

Oh how you kill me with
Your avalanche
You freeze my heart
Until I cannot
Move to pull
Out the dart

Kill the noise
Kill the sound
Leave me fearless
Kill the noise
Kill the noise
Kill the sound
Hear the avalanches crashing down
Until everything calms down
Kill the noise
