

Fly Me Over

Kahitna

Alone in this mind regression
When even the spaces lock me too
But somehow, you set me free

From all of the seas, an ocean breeze
Your wind is the only soothe I need
That somehow can fly me free

Fly me over
Fly me higher
Take me further
Million miles away

So blind of the wave's intention
I couldn't tell where it led me to
But somehow, I know it's you

From all of the seas, an ocean breeze
Your wind is the only soothe I need
That somehow can fly me free

Fly me over
Fly me higher
Take me further
Million miles away

Fly me over
Fly me higher
Take me further
Million miles away

How long till you believe in me?
How long till you believe in me?

Fly me over (Fly me over)
Fly me higher
Take me further (Take me further)
Million miles away

Fly me over
Fly me higher
Take me further
Million miles away

Fly me over (Fly me over)
Fly me higher (Fly me higher)
Take me further
Million miles away

How long till you believe in me?
How long till you believe in me?
(Believe in me)
How long till you believe in me?
(Believe in me)
How long till you believe in me?
