

## 2000 N Somethin

Kaiit

Roll off and pass it while the lights are all still green  
Look at myself and realise the world's eyes are all iPhone screens

So caught up in the world around me  
Need to stop caring how strangers view me  
I was born in the wrong year, the wrong time, this not my destiny

So um, where you at? 1962  
It's been a minute since we kicked it  
Heard you got the new tattoo  
Had no friends so I had to sheep with them  
Now I can't quit it  
So I said, where you at? 1962  
It's been a minute since we kicked it  
Heard you got the new tattoo  
Had no friends so I had to sheep with them  
Now I can't quit it

Understand that what is going on is bound to me  
All this hatred in the world, I'm surprised the earth is still turning

So caught up in the world around me  
Need to stop caring how strangers view me  
I was born in the wrong year, the wrong time, this not my destiny

So I said, where you at? 1962  
It's been a minute since we kicked it  
Heard you got the new tattoo  
Had no friends so I had to sheep with them  
Now I can't quit it  
So I said, where you at? 1962  
It's been a minute since we kicked it  
Heard you got the new tattoo  
Had no friends so I had to sheep with them  
Now I can't quit it
