

## Lazor Jam

Kaiser Chiefs

Gotta be on the left  
Gotta sit on your right  
You've gotta find somebody  
You've gotta hold on tight

I wanna be with you, I know I do  
I said its horrible, the human zoo  
You're gonna be all  
It's time to get on you  
We're praying lord knows what you want  
God knows what you want  
He'll know just what to do

Lead on now  
I wanna go in two by two  
You are wrong if you don't know its two by two  
Cause it's not that long before you've gotta choose and go in t  
wo by two  
Nothing to it you and you

Lead on to your room

Danny's in the kitchen and sisters in the hall  
Maxie's in the bathroom and Nancy's there with Paul  
Pearl is on the telephone, Lester's trying to write  
Mollie's in the garden and Deb's been here all night

She want it for nothing, that's no lie  
Sing karaoke on my own outside  
There's too many people, there's not enough world  
We're probably building up all of the space for taking them all  
What happens on the inside, what happens on the night  
Nothing is a problem, you keep it out of sight

On your own with no one to talk to [x2]

That's how you like it [x5]
