## **Starts With Nothing**

**Kaiser Chiefs** 

It starts with nothing And it ends in nothing You start with nothing And you leave with nothing It'll start with nothing And will end in nothing You arrive with nothing And you leave with nothing

You're on your own on the last train home Open your eyes you have arrived You're on your own again At the end

It starts with nothing And it ends in nothing You arrive with nothing And you leave with nothing

Nobody knows where the money goes You are alive and a passerby And leave it all behind Never mind

It starts with nothing And it ends in nothing You start with nothing And you leave with nothing It'll start with nothing And will end in nothing You arrive with nothing And you leave with nothing

Yes that is my final answer Yes that is my final answer

You're on your own on the last train home Another tunnel on the circle line With nothing up your sleeve As you leave

It starts with nothing And it ends in nothing You start with nothing And you leave with nothing It'll start with nothing And will end in nothing You arrive with nothing And you leave with nothing
