

# Wait

## Kaiser Chiefs

Just wait

For happy ever after in a never ending summer can't wait  
Passing every mirror just to check you're looking slimmer, lost weight  
99 problems and every single one with a flake  
How can you be so sad when everyone around you is okay?

Can't wait

Can't wait

Like ripping off a plaster, be quicker, do it faster, don't wait  
Skipping every meal, now can you feel it gathering pace?  
Everyone is famous, line up and take a number, just wait  
How can you be crying when everyone around you is...

Laughing all the time, singing as we go  
Looking like an ad, drinking Diet Coke  
Everybody dance, let's break down tonight  
Making up the lies, keeping up the show  
Checking out the boys, wearing summer clothes  
Get it while you can, let's break down tonight  
Or just wait

Can't wait

Can't wait

Gimme, gimme, gimme, celebrity bikini click bait  
Give me Stacy Solomon, show me her abdominal plate  
Where is my forever? I was promised I was special take take  
How can you be normal when everyone around you is...

Laughing all the time, singing as we go  
Looking like an ad, drinking Diet Coke  
Everybody dance, come on over  
Let's break down tonight  
Making up the lies, keeping up the show  
Checking out the boys, wearing summer clothes  
Get it while you can, if you wanna  
Let's break down tonight

National Breakdown is starting today  
Due to lack of interest it's delayed  
Now your 15 minutes turned into 8  
I'll take hell now  
Give em hell now and heaven can wait

(Wait, wait)

Appy ever after in a never ending summer, just wait  
How can you so sad when almost everyone around you is...

Laughing all the time, singing as we go  
Looking like an ad, drinking Diet Coke  
Everybody dance, come on over  
Let's break down tonight  
Making up the lies, keeping up the show  
Checking out the boys, wearing summer clothes  
Get it while you can, if you wanna  
Let's break down tonight

I'll just wait

Let's breakdown tonight, I'll just wait, wait, wait, wait

Let's breakdown tonight, I'll just wait, wait, wait, wait

Let's breakdown tonight, I'll just wait, wait, wait, wait

Let's breakdown tonight, I'll just
