

Frequency

Kakkmaddafakka

Never mind, we can start again tomorrow

So many truths
About me and you
Some make me glad
And all the times we had
They pass me by
Just like the traffic lights
One by one
And the space between

It's the frequency
Of you and me
It's the frequency
Of you and me

Just here and now
Rollin' by
Let the silence drown
In [?] sound
A careless glance
For a shot at romance
Read every sign
To make 'em up in my mind

What's the frequency
Of you and me
It's the frequency
Of you and me
It's the frequency
Of you and me
It's the frequency
Of you and me

Nevermind, we can start again tomorrow
Easy minds, who needs to read between lines
Easy minds, who needs to read between lines
Easy minds, who needs to read between lines
Easy minds, who needs to read between lines

It's the frequency
It's the frequency
