

## Galapagos

Kakkmaddafakka

And we're walking, car parked in the shade of the trees  
Tried to climb one, countryside activities  
And we're walking, a woman and her dog look away  
Nod at the locals, knowing that we're not going to stay

And we're walking, talk about The Galapagos  
Natural science, erosion, eruption and us  
And we're walking, palms are sweating, our hands let go  
Keep on talking, self-conscious but it's not gonna show

Wade in the water on your own, don't wanna go home  
Leave clothes and shoes on the ground, don't make a sound  
Don't make a sound  
Don't make a sound
