

## Holding Me Back

Kakkmaddafakka

I see it clearer than most guys  
And even better than daylight  
You don't know pain from your hideout  
I've been around the world  
I used to feed from your drug  
Now the pleasure's from one side  
Your presence by my side  
Is the only thing holding me back  
Keeping you around was a trap  
And now I'm drunk as hell  
Well, now you know how I feel

Don't you ever worry, 'bout my life?  
Please say you need me one last time

What they hear, what they say  
The love of my life's now a wife  
Along the way I make three girls  
Might be the worst, I'm not safe  
I've been around the world  
Don't you forget, I mean it  
Don't keep pushing me and go blind  
Don't you hear, what I say?  
You're the only one that's holding me back  
Keeping you around was a trap  
And now I'm drunk as hell  
Well, now you know how I feel

Don't you ever worry, 'bout my life?  
Please say you need me one last time  
You're the only one that's holding me back

You're the only one that's holding me back  
Holding me back  
You're the only one that's holding me back  
Holding me back  
Holding me back  
Holding me back
