

True

Kakkmaddafakka

You brought the autumn in May
And you had nothing to say
Stupid me trusted your word
To a rumour was how I heard
They say it happened all for a long time
You said... is a waste of time
It was in those days
You called yourself mine

Too, too good to be true
Too, too good to be true
Is what I always told you
Too, too good to be true
'Cause you couldn't be true
Oh baby
You're too good to be true

Well of course... up in lies
And of course...
I can only see it now
And how to decide
'Cause you'd been playing it all for good
Doing everything the way you should
And every monday you were fresh stop for the living room
Ow can I have understood?

Too, too good to be true
Too, too good to be true
Is what I always told you
Too, too good to be true
'Cause you couldn't be true
Oh baby
You're too good to be true

And I wish it was me that had ended it all
And I wish it was me that had ended it all
And I wish it was me not giving a call
Oh I wish it was me that had ended it all
Ended it all

Too, too good to be true
Too, too good to be true
Is what I always told you
Too, too good to be true
'Cause you couldn't be true
Oh baby
You're too good to be true

Yeah you couldn't be true
You're too good to be true
'Cause you couldn't be true
You're too good to be true
