

Light After Darkness

Kaledon

Waiting for the light in the night
Eating dust and air to survive
Finally my friends are coming back
I would never see again the night

Screams of hate into the evil hous
Carnagus wants his trophy back
Form Azrael's lap life begins
A new evil creature was born

Light after darkness is now real
I'll come back again in my lovely land
Vengeance is the word that I have in mind
With my troops I'll come again with swords in hand
Evil will be stopped right now and we'll win

Rapt by this new hellish monster
Oh no, I am here another time
The evil king in front of me
His laugh is entering in my ears

From the wood I see one mighty sword
Daeniel is now here once again
Fighting for freedom into the night
Finally I'm free and I see the light

Light after darkness is now real
I'll come back again in my lovely land
Vengeance is the word that I have in mind
With my troops I'll come again with swords in hand
Evil will be stopped right now and we'll win
