

Endless Youth

Kaleida

You, you and me
We lay our body down
Summer heat
The endless youth
Don't grieve
Even her body aches
Just to be free

Ah, you don't need anyone
'Cept for me
Ah, lost in our solitude
And this world we leave

Oh how are we so
Terror with love?
Oh how I been so
Been so violent with loss
You are the shadow sun
You tear it all tear it all out
Oh how I been so
Been so violent with loss

The endless you don't grieve
The marks on our body now
We leave in the deep
It's all for you, you don't see
Whatever we're calling it
Whatever will be

Ah, I don't want be physical
I just wanna lose control
Ah, I just gotta let you know
So I can let you go

Oh how are we so
Terror with love?
Oh how I been so
Been so violent with loss
You are the shadow sun
You tear it all tear it all out
Oh how I been so
Been so violent with loss
