Generation

Kaleida

Now all you people of the new generation
We got every piece at our fingertips
Any time we order don't got words to report it
Or the time to enjoy it and we can't focus

Don't got my papa's patience but I know
I'm allowed to let it go

Everybody got the broken time
Running round like they got wasted minds
Every button and we don't know why
All the empty I'mma go get high

Don't got my papa's patience
Ain't got the time to know
Don't got the mind to space it
It's a lot to let it go

Now all you people of the new generation
We got everything at our fingertips
Any time we order don't got words to report it
Or the time to for exploring and we can't focus

Everybody got the waste of mind
Running round like they got broken time
Every button and we don't know why
All the empty I'm a go get high

Don't got my papa's patience
Ain't got the time to slow
Don't got the mind to space it
It's a lot to let it go

I am my father's daughter
Don't got the time to slow
It's all in the mind he taught her
Deep in the time we know

A little tragedy
You're a commodity
I got to set you free
But I don't know how
