Kaleida

Sometimes I need you now  
Like a feeling under skin  
It's all in front of me  
But I do not go in

And when the ego rules  
And you can't see lie from truth  
All this trickery  
Will it set you loose?

You are the lover  
So what you gonna do  
Don't you take cover  
From your own truth

You are the giver  
Giving your peace  
Will you deliver?  
Or will you fade?  
Will you fade?

Sometimes you're reaching out  
For the furthest point within  
It's all in front of you  
But you do not go in  
You do not go in  
You do not go in  
No you do not go in

(Heart  
Life  
Here  
Now

Have  
No  
Fear

Hear me now  
Heart life here now  
Heart have no fear)

You are the lover  
So what you got to show  
Don't you take cover  
From your own soul

You are the giver  
Giving your peace  
Will you deliver?  
Will you bleed?

You are the lover  
Giving your peace  
Life'll make you shiver  
But you got what you need

Life'll make you shiver  
Will you deliver  
Will you deliver
