

Other Side

Kaleida

Hold me, baby, maybe one more time
Don't stop giving till the other side
Know me better than I know my mind
Won't be different if I never try
Won't be different if I never try

Heard this, baby, maybe one more time
Tell me now if I live or die
Don't I know it when I see your face
That we'll all go to a better place
We'll all go to a better place

Told you now not to listen here
Bring me back to other fear
Tell my heart that it's gotta yearn
'Cause it won't stop if I never learn
'Cause it won't stop if I never learn

Told you, baby, just to give it time
We won't stop till we get it right
Keep it all 'cause you know my mind
It's all good on the other side
It's all good on the other side
It's all good on the other side
It's all good on the other side

Hold me, baby, maybe one more time
We won't stop till we get it right
Keep it all 'cause you know my mind
It's all good on the other side
It's all good on the other side
It's all good on the other side
