Think

Kaleida

Go ahead, take me down now.
Give me what you don't know
Go ahead, take me all down now.
Get this, get this into your game.

You got me in a heading drop
I never wanna come off
You got me with your beat of love
I never wanna come out.

Think of me, I'll never break your heart.
Think of me, you're always in the dark.
I hate your love, your love, your love.
Think of me, you're never in the dark.

Now that I'm making this all up
Let me into your know.

You got me in your open hand
I never wanna come back
How do we let you never found?
You know it's gonna come out.

Think of me, I'll never break your heart.
Think of me, you're always in the dark.
I hate your love, your love, your love.
Think of me, you're never in the dark.

Think of me, I'll never break your heart.
Think of me, you're always in the dark.
I hate your love, your love, your love.
Think of me, you're never in the dark.

Think of me, I'll never break your heart.
Think of me, you're always in the dark.
I hate your love, your love, your love.
Think of me, you're never in the dark.
