

I feel the heat  
We make in haste  
Let's shake this feeling  
Get it better heard now

We make it clear  
We draw the line  
I hear them calling  
But they just won't fight

But at least I could leave  
In a way I'm down  
So take my lead and turn me on 'round

Why he-here? Why he-here?  
I see heaven, I see heaven  
Why he-here? Why he-here?  
Make this happen, make this happen  
Oh, show me, show me  
You know you can't hide  
Why he-here? Why he-here?  
I need your light, I need your light

They speak in tongues  
Another land  
We come together now to understand

But at least we could leave  
In a way I'm down  
So take my lead and lead me on 'round

Why he-here? Why he-here?  
I see heaven, I see heaven  
Why he-here? Why he-here?  
Make this happen, make this happen  
Oh, show me, show me  
You know you can't hide  
Why he-here? Why he-here?  
I need your light, I need your light

(I need your light, I need your light...)

Why he-here? Why he-here?  
I see heaven, I see heaven  
Why he-here? Why he-here?  
Make this happen, make this happen  
Oh, show me, show me  
You know you can't hide  
Why he-here? Why he-here?  
I need your light, I need your light
