

## Back Door

Kaleo

Well, she's ready to ride on your 45 now  
She's goin' straight to your heart  
Blowin' smoke in your eyes, now you're too far behind, oh  
She had you played from the start

Said she's ready to ride on your 45 now

Baby, take the back door, baby, don't look back  
Baby, take the back door, I'm goin' away  
Baby, take the back door, baby, don't look back  
Baby, don't look back, I'm goin' away

Oh, baby, take the back door  
Yes, baby, take the back door

Well, now don't be a tease, you know I'm easy to please, oh  
You got me right where you want  
And now we don't have much time, is it your place or mine?  
Don't leave me dry and undone, no

Your curse is now mine  
Makes my cold blood run wild  
So run on, child, run on  
Get back where you belong

Baby, take the back door, baby, don't look back  
Baby, take the back door, I'm goin' away  
Baby, take the back door, baby, don't look back  
Baby, don't look back, I'm going away

Baby, take the back door (Back door)  
Take the back door (Back door)  
Baby, take the back (Back door, back door)  
'Cause I'm your back door man

If you're ever in trouble (Trouble)  
There's always a back door, yeah (Back door)  
If you're ever in trouble (Trouble)  
There's always a back door (Back door)  
Trouble  
Back door  
Trouble
