

Happy Now

Kali Uchis

Can we be happier now?
I wanna be happy now
Can we be happy now?

Can we be happier now?
I wanna be happy now
Can we be happy now?

Baby, if you miss me you should text
Won't ever forget me, you won't
Promise you'll take the stars out the sky
Make them all align just for us

Cosmic conditions conspired against us
'Cause you and me got chemistry
But what's with our timing?
Guess it's better we never rushed
Our spark turned to flames
Don't gotta listen to a word they say
It was never their business anyway
Let's you and me start over today
Be happy

Can we be happier now?
I wanna be happy now
Can we be happy now?

Can we be happier now?
I wanna be happy now
Can we be happy now?

Baby, if you miss me you should text
Won't ever forget me, you won't
Promise you'll take the stars out the sky
Make them all align just for us

Hey, hey
Oh, oh, oh
Hey, hey
Oh, oh, oh
Hey, hey
Oh, oh, oh
Hey, hey
Oh, oh

Peace of mind
I've gotta free my mind
Don't wanna think about the pain or the heartaches
Just wanna remember
All the good things

Don't, don't speed through the rainbows
Rainbows, rainbows
Don't, don't speed through the rainbows
Don't, don't speed through the rainbows
Rainbows, rainbows
Don't, don't speed

Don't, don't speed

Peace of mind

I've gotta free my mind

Just wanna remember

All the good things
