

Real

Kali Uchis

You got the game fucked up
Walking into my life, tryna
Switch everything all up
Something I can't define 'bout ya
I think I like it baby
You showed up right in time, and I
Think that I like it
(Yeah, I like it)

Scared money don't make none
Boy, I don't got the time when you
Tell me that I'm the one
Need more than wanting that 'cause we
All are so temporary
And sharing my lifetime with someone is a little scary

Yeah I'm down, but not just for anyone
Stick around, this could turn into heaven
I'll be real, I love your energy
'Cause you're real, you ain't just anything

I ride for mine
This is so deceitful
I wasted time, on all the wrong people
I'm choosing up, I'm being picky
So, you're tryna play games
This could get sticky

Yeah I'm down, but not just for anyone
Stick around, this could turn into heaven
I'll be real, I love your energy
'Cause you're real, you ain't just anything

Yeah I'm down, but not just for anyone
Stick around, this could turn into heaven
I'll be real, I love your energy
'Cause you're real, you ain't just anything
