

# Rush

Kali Uchis

Stay afloat  
When it feels like it's all going nowhere  
And you want it all  
But the tide keeps trying to pull you under  
Let it go  
You can't fight the waves, boy, it's no wonder  
If you wanna grow  
Don't fight what's natural (it's only natural)

La-la-la-da-da-di-da-da-dow  
(Lose it to the rush, lose it to the rush)  
Ooh-ooh-ooh-la-da-di-da-di-dow  
(Lose it to the rush, lose it to the rush)

Let it rush all over, let it rush  
(Lose it to the rush)  
Let it rush all over, let it rush  
(Lose it to the rush, lose it to the rush)

Why do I do the things I do?  
(Oh, oh, if you only knew)  
¿Querías salvarte? Dímelo  
(Papi, siento que es tan natural)  
They've got so much to say (to say)  
And I don't find that strange (that strange)  
I'd never make you change  
I'd never do that to you

'Cause time stops still  
Feels like it's all going nowhere  
Time's not real  
And when it's drifting away  
'Cause the time stops still  
Feels like we're all going under  
The tide's not real  
And we're just drifting in space

La-la-la-da-da-di-da-da-dow  
(Lose it to the rush, lose it to the rush)  
Ooh-ooh-ooh-la-da-di-da-di-dow  
(Lose it to the rush, lose it to the rush)

Let it rush all over, let it rush  
(Lose it to the rush)  
Let it rush all over, let it rush  
(Lose it to the rush, lose it to the rush)
