

# Sunset

Kali Uchis

It was a sunset  
A real nice sunset  
Took a ride with you and that's when we got undressed  
Silence my telephone and that's my protest  
Let me focus, no autofocus

You can be my  
You can be my  
You can be my  
You can be my sunset

And in the night time I'll steer you right, man  
I can be your headlights  
It's the right time to see the sights by, to see the sights by  
You can show me yours and I can show you my mind

You can be my  
You can be my  
You can be my  
You can be my sunset

Sunrise, ain't it pretty  
I can lift you to the sky if you feel shitty  
Ain't the beach fun and the nitty-gritty  
Forget your home town  
Yeah, fuck that city

You can be my  
You can be my  
You can be my  
You can be  
Forget your home town  
Yeah, fuck that city

Sunset  
A real nice sunset  
Took a ride with you and that's when we got undressed  
Silence my telephone and that's my protest  
Let me focus, no autofocus

You can be my  
You can be my  
You can be my  
You can be my sunset
