

Three Pills

Kali Uchis

I'm off three pills
I feel a whole lot better
And this chick says that we shared a class
But I ain't never met her
She's off three pills
They're trying to get her wetter
And I'm off three pills
Just laughing at the fedders

I just wanna be nice so nice
She said I could pull advice
No don't think twice rainbows beaming from eyes
Pretty pretty please with a cherry on top
Every time you feel euphoric don't stop, don't stop
Turn that all around let it drop, let it drop
Yeah roll it all around let it drop, let it drop
Every time you feel it, feel it don't stop, don't stop
Let it linger in your system like a cop, cute top

Looking really special, forgive me for being shallow
But your appearance is soothing me like some aloe
I'm feeling it, Mahalo
Bless me with your presence, the opposite of malo
Am I sweet yet? Tell me, am I sweet yet?
We can have a picnic and I'll serve you from my tea set

We can have a picnic and I'll serve you from my tea set

I'm off three pills
I feel a whole lot better
And this chick says that we shared a class
But I ain't never met her
She's off three pills
They're trying to get her wetter
And I'm off three pills
