

Candy

Kalie Shorr

Chasing you down like an ice cream truck
Every damn time that my phone lights up
I be salivating at the sound of what's up
Yeah what's up
I rationalize a drive by your house
Not on my way, but I guess it is now
I want another taste and I don't care how
No, I don't care how

I know you're not forever
But you're my guilty pleasure

You mess me up with that sugar rush
Got me addicted
Melt in my mouth
You disappear
And make me miss it
Mama said you were bad for me
But I didn't listen
Boy you're delicious
Too bad you ain't nutritious
When you say my name, it's like candy
When you kiss my lips, it's like candy
You're no good for me, you're like candy
You're like candy

No, I'm not proud of my bad behavior
I guess I can't help my human nature
High on that sugar coated danger
But I like the flavor
Like a Sonic cherry lemonade
Like a straw dipping in that Coca-Cola concentrate
Savor every minute till the sweetness fades

I know you're not forever
But you're my guilty pleasure

You mess me up with that sugar rush
Got me addicted
Melt in my mouth
You disappear
And make me miss it
Mama said you were bad for me
But I didn't listen
Boy you're delicious
Too bad you ain't nutritious
When you say my name, it's like candy
When you kiss my lips, it's like candy
You're no good for me, you're like candy
You're like candy
When you say my name, it's like candy
When you kiss my lips, it's like candy
You're no good for me, you're like candy
You're like candy

When you say my name
When you kiss my lips

You're no good for me
You're like candy

You mess me up with that sugar rush
Got me addicted
Melt in my mouth
You disappear
And make me miss it
Mama said you were bad for me
But I didn't listen
Boy you're delicious
Too bad you ain't nutritious
When you say my name, it's like candy
When you kiss my lips, it's like candy
You're no good for me, you're like candy
You're like candy
