

Love Like That

Kalie Shorr

Well I've had my share of sweet talking romeos, but you take the cake
When you text your ex and flirt with the hot waitress right in front of my face

When you mess around, you don't mess around
You're a cut above the rest
You're a lowblow, virtuoso
I'm not mad, I'm impressed

Where'd you learn to break apart somebody's heart?
Take the piece you want and run off

Where'd you learn to make em fall
Then never call?
Only wanna get yours and get lost

Well did you get a full ride to the college of Casanova?
Get a BS in giving cold shoulders?
Did you graduate all alone at the top of your class?

Tell me baby where'd you learn to love
Where'd you learn to love like that?

Well I know your preacher and your third grade teacher
And I call your mama by her first name

So you must've been raised by wolves cause Debby damn sure don't play that game

When you mess around, you don't mess around
John Mayer's got nothin on you

But he's a rockstar, and that's how they are
So what your excuse?

Where'd you learn to break apart somebody's heart?
Take the piece you want and run off

Where'd you learn to make em fall
Then never call?
Only wanna get yours and get lost

Well did you get a full ride to the college of casanova?
Get a BS in giving cold shoulders?
Did you graduate all alone at the top of your class?

Tell me baby where'd you learn to love
Where'd you learn to love like that?

Where'd you learn to break apart somebody's heart?
Take the piece you want and run off

Where'd you learn to make em fall
And then never call?
Only wanna get yours and get yours and get lost

Where'd you learn to break apart somebody's heart?

Take the piece you want and run off

Where'd you learn to make em fall

And then never call?

Only wanna get yours and get lost

Well did you get a full ride to the college of Casanova?

Get a BS in giving cold shoulders?

Did you graduate all alone at the top of your class?

So where'd you learn to love

Where'd you learn to love like that?

Where'd you learn to love like that?
