

# Home Sweet Hell

Kalmah

I cannot stay in this place  
Cannot stand here anymore

Distress gnaws inside me

I have to go, have to leave  
This behind to live my dream

Sweet little dream  
Just my wish

Home sweet hell  
The last farewell  
Home sweet hell  
Nothing more to tell

I'm on my way to stay away  
Away from you  
Away from the pain

I did not bend  
In front of you

Before I burned the house down  
I locked you in  
You were so awesome  
So this is win-win  
I will not miss you  
Or do not hate  
It's what you deserved  
Or call it fate

Burn, burn

Sweet little dream  
Just my wish
