

Digits

Kamaiyah

Saw you from a distance, I'm diggin', ayy
In my peripheral vision
Gotta let me know what's up with it, ayy
Can I get those digits?
Please let me know 'cause I ain't got long, ayy
Can I get those digits?
I pushed up on, stand tall, don't fall, ayy
Can I get those digits?

Let's start conversation, baby, you are a sensation, ayy
Ain't got no situation, been watching you since you came in
That's who you came with? I guess we both got the same friends
They let you know I'm not flagrant
Let's make arrangements to relocate and keep hangin'
Don't have me standin' here waitin'
And if you show up, baby, I'ma go up
Let you know my name and let you know my motive
And since I saw you, baby, you are all I wanted
If someone is around, then they not gettin' noticed
I hope you on the road now, pull up in here showin' out
My heartbeat is strong now, don't you take too long now
Got you here alone now, I'ma put my phone down
You gone' put them digits and that's how this gon' go down
