

The One

Kamaiyah

Ain't quick
It's only right that you make the bed shake
We keep it lit, you know these niggas gotta pay, okay

They told me "yeah, girl you 'posed to be the one"
I be like duh, can you stop with the obvious
I lost my footing, got the stride [?]
It's only right that that I take em' on a ride again
The gang, it turned me into a monster
We steppin' on everything and we prosper
Champagne, [?] them bottles poppin'
You know the money ain't a thing when you mobbin', ay

Both grandparents, I lost both grandparents
Lost my favorite TT, lost a lovin' marriage
Back inside that booth, you see I'm thuggin' heavy
Went back to my jeweler, told him flood more karats
Back around my way they say I'm legendary
I come from a place that breeds legends rarely
Very safe to say that a bitch don't scare me
Click clack bang, big fros, big frizzy
Blessed baby, I know that I'm chosen
These new niggas act like hoes, I watch em' gold dig
They pocket watchin' like these bitches with the motives
Would never trust a crooked smile if it's golden

Hot girl shit, it's the hot girl, bitch
Diamonds on froze, on your block I stick
Different kind of breed, I am not like them
From the block I bleed, 30 shots don't miss

They told me "yeah, girl you 'posed to be the one"
I be like duh, can you stop with the obvious
I lost my footing, got the stride [?]
It's only right that that I take em' on a ride again
The gang, it turned me into a monster
We steppin' on everything and we prosper
Champagne, [?] them bottles poppin'
You know the money ain't a thing when you mobbin', ay

I can't trust nan nigga, I can't trust nan bitch
These industry friends turned me to savage
I healed my soul, my heart got bandages
Heavy is the head, but I manage it
They don't really like you when you can't be used
They don't really like you when you can't be fooled
Standin' 10 down, no I can't be moved
Y'all hoes get around, and I can't be you
My brotha told me, yeah keep poppin' out
On some West side shit, you the hardest out
Anybody come for you, we'll knock em' down
You the queen, baby, rule, just rock the crown

Hot girl shit, it's the hot girl, bitch
Diamonds on froze, on your block I stick
Different kind of breed, I am not like them
From the block I bleed, 30 shots don't miss

They told me "yeah, girl you 'posed to be the one"
I be like duh, can you stop with the obvious
I lost my footing, got the stride [?]
It's only right that that I take em' on a ride again
The gang, it turned me into a monster
We steppin' on everything and we prosper
Champagne, [?] them bottles poppin'
You know the money ain't a thing when you mobbin', ay

You know the money ain't a thing when you mobbin'
You know the money ain't a thing when you mobbin', ay
You know the money ain't a thing when you mobbin', ay
