

Oh la di  
I get it in like Bomani  
I done gone Bobby  
And built me a bank  
Can't nobody  
Embody Bonnie  
I'm 'bout it, 'bout it  
I body the whole lobby  
And I don't need a ghostwriter  
My mind on fire like Ghost Rider's  
And if I go ghost, that's more fire  
On deck, like roast pirates  
I cook up, release, book up, shook up  
Stage  
Look up release, pull up, pull up  
Pay  
Know the quality is guaranteed  
All I do is cook up what I need  
Luckily we got a common de-  
Nominator, serving to the safe  
Know I gotta keep it safe  
Though I'll never let it lead me stray  
Same time, keep a sane mind  
Sane mind keep a safe mine  
Mine mine, keep it safe  
People take, I ain't ever seen a sane mime  
I ain't ever been Jemima'd  
I ain't ever made sweet  
I ain't ever been tamed  
And I ain't afraid to let you see the teeth

Flowers in the snow  
All is just to grow  
If ya didn't know  
Ya can't say you don't (anymore)

Oh la di  
I get it in like teaspoons  
All with a grin that'll tease poon  
I get the skins like teepees  
But too many friends in the teepee  
And too many chins on the tiki  
Will put you in hot water like tea leaves  
But ain't no space in the tea bowl  
If you don't wanna get T-Boned  
Put up, release, pull up, hook up  
Ways  
Took up what we coulda put to  
Gains  
Highest quality ain't guaranteed  
If I never cook up what I need  
I just got addicted to the sweets  
Used to only get a bitter taste  
Used to only chase for the chase  
I ain't ever make it past the chase  
Whole-time, what my time fo  
A fine foe is a Typhoon

I done flown into Typhoons  
So much I'm a finephobe  
Oh it's priceless to focus  
Ain't no progress that's free  
Depending on how you frame it  
Ain't no friend like defeat

Flowers in the snow  
All is just to grow  
If ya didn't know  
Ya can't say you don't (anymore)
